Hocam,
buyuk gecmis olsun. cok uzucu bir durum.

soyle bir sey aklima geldi, simdi arkadaslar hemen durumu bu sekilde duyururlarsatepki alinabilir, merak edilen konu privacy konusu olacak, yani personal bilgileri ne kadar compromise edildi. SSNs yok galiba sistemde mesela bu soylenebilir bunun haricinde maas bilgileri bulunmuyor. bunun gibi rahatlatıcı birkac sey de eklenebilir meseja belki. girilmis olan okullarda telefon ve adresler tabiki problem. bunlar identity theft'e acik konular.

ogrenci bilgileri icin de benzer bir konu sozkonusu. bankalar bu gibi konularda musterilerine acik oluyorlar. eger ciddi bilgi kaybi yoksa ogrenciler skip edilebilir ama ogretmenlerden durum yayilabilir. bu konuyu duyuru policy'si lazim acilen....

Dear Administrator(s):

On behalf of Concept Schools IT Team, I am writing to inform you and your staff about recent internet/database problem. As our web hosting company, CI Host (www.cihost.com), Chicago Office/Data Center reports us, there has been an incident in their Chicago Data Center. Police has been involved and investigation is going on. Among many servers, a number of servers including Concept Schools' server have been either stolen or damaged during the attempt. The company has announced that they were expecting the police report Monday.

The IT Team at Concept Schools have been working hard to make a new server completely available by Monday 8:00 am CT. All school data has been backed up as of Monday, November 13, 2006 2:00 am CT. As soon as the uploading process is complete you will be able to continue to manage your school data. The restored data is up-to-date as of last back up date.

As Concept Schools IT Team we apologize for the inconvenience and thank you for your patience. Please call (847) 671 2624 for further information.

IT Team
Concept Schools
